# Press Release

## **Product Sheets for Custom Thermal Oxidizers, Air Pollution Control Equipment and Systems**

NacahTech provides custom-designed solutions for difficult air pollutants

**Pittsburgh, PA October 26, 2011:** When hard-to-handle air pollutants make air pollution regulations difficult to meet, Nacah Tech offers custom solutions for equipment and systems. By designing the oxidizer as part of a unique solution for each application, efficient solutions are presented. As an added benefit for optimizing the design, customers can elect to combine additional energy-saving equipment such as waste heat boilers and heat exchangers to allow long-term energy savings. Nacah Tech custom APC solutions may be incorporated to best fit existing plants and accommodate production schedules to minimize downtime during installation or retrofit.
